

**Central Fiscal Authority**

**ADMINISTRATIVE INSTRUCTION NR. 01/2001, DATED MAY 31, 2001**

**ON**

**IMPLEMENTATION OF VALUE ADDED TAX**

The Co-Heads of Central Fiscal Authority,

Hereby give the following Administrative Instruction:

Section 1  
Consideration

- 1.1 In respect of section 1.3 of the Regulation, "Consideration" means any payment or act or forbearance in respect of a supply of goods or services, and shall include an amount that is payable, or goods received in a barter transaction.
- 1.2 In a barter transaction between two registered persons, where goods or services are acquired by the recipient and the consideration consists of goods or services acquired by the supplier for use exclusively in commercial activities, the value of the consideration shall be deemed to be nil.
- 1.3 In a barter transaction between a registered person and a non-registered person, the transfer of goods or services from the registered person to the non-registered person shall be deemed to be made for consideration. The taxable value of the barter transaction shall be the open market value for the goods or services given in exchange.

Section 2  
Exclusion

- 2.1 In respect of section 1.8 of the Regulation, "Exclusion" means an import, intra FRY inflow or domestic purchase for which no value added tax is payable by the recipient.
- 2.2 In connection with sections 11(d) and (e) of the Regulation, imports, intra FRY inflows or domestic purchases made by Liaison Offices, United Nations or its organs including UNMIK, KFOR, the World Bank and International Inter-Governmental Organizations shall be excluded from value added tax.
- 2.3 In connection with section 11(c) of the Regulation, value added tax will not apply on imports or intra-FRY inflows made by UNMIK or the Administrative Departments of the Joint Interim Administrative Structure in support of humanitarian and reconstruction programs if the imports and intra-FRY inflows

are made from the proceeds of grants given by governments, government agencies, governmental or non-governmental organizations.

- 2.4 Representatives of the organizations stated in paragraphs 2.2 and 2.3 above seeking to clear the goods at Border Crossing Points or Administrative Boundary Lines shall produce to Customs Service, in a form acceptable to the Customs Service, documentary proof that the shipment of goods is entitled to such exclusion.
- 2.5 Any time an excluded domestic purchase is made by the organization stated in paragraphs 2.2 and 2.3 above, the representative shall provide the registered vendor with his/her personal ID details and an authorization by the organization that he/she is authorized to execute the official purchase. The representative shall sign the tax invoice prepared by the registered vendor certifying that no VAT was paid for that supply. The tax invoice shall be prepared in two copies. The original shall be given to the buyer and the second copy shall be kept by the registered vendor. The buyer shall make a photocopy of the tax invoice, certify its authenticity and deliver it to the Regional or Local Tax Office.

### Section 3 Exempt Supply

In respect of section 1.9 of the Regulation, an "Exempt Supply" means any supply of goods or services that is not subject to VAT. This means that the Registered Person shall not charge and collect VAT for that supply. No credit of input tax is allowed for exempt supplies.

### Section 4 Financial Services

In respect of section 1.11 of the Regulation, the definition of "Financial Services" in 1.11(f) includes only life insurance and reinsurance. The supply of Third Party Liability insurance contracts and other property insurance contracts by VAT registered insurance companies is therefore not an exempt supply under section 12 of the VAT regulation and VAT shall be charged on the insurance policy bill. The policy bill shall be regarded as the tax invoice.

### Section 5 Related Person

In respect of section 1.21 of the Regulation, "Related Person" means a person with special relations with the taxable person. Persons shall be deemed to be related only if:

- (a) they are officers or directors of one another's businesses;
- (b) they are legally recognized partners in business;
- (c) they are employer and employee;
- (d) any person directly or indirectly owns, controls or holds 5 percent or more of the outstanding voting stock or shares of both of them;
- (e) one of them directly or indirectly controls the other;
- (f) both of them are directly or indirectly controlled by a third person;
- (g) together they directly or indirectly control a third person; or
- (h) they are members of the same family.

## Section 6 Turnover

In respect of section 1.29 of the Regulation, "Turnover" means the gross receipts of all supplies made by a person in Kosovo. It includes taxable supplies at the normal tax rate of 15%, taxable supplies at the rate of 0% and exempt supplies. The turnover taken into account for registration purposes shall be the turnover of the calendar year.

## Section 7 Registration

- 7.1 All taxable persons who import, export, make intra FRY inflows or intra FRY outflows and taxable persons whose turnover is higher than 200,000 DM in a calendar year are required to register for VAT with Tax Administration.
- 7.2 The supplies made by taxable persons who import or make intra FRY inflows but whose annual turnover does not exceed the 200,000 DM threshold are exempt supplies per section 12(e) of the Regulation. Taxable persons who make these supplies are required to register under section 3.6 of the Regulation and to pay VAT on their imports and intra FRY inflows. They are not entitled to charge VAT and are not entitled to a credit of input tax. Section 17 of the Regulation provides for these taxable persons to submit a declaration. However, since there is no output tax or input tax to declare, Tax Administration shall not insist on a tax declaration being filed.
- 7.3 Persons who must register for VAT but for whom it is impossible to go to their Regional or Local Tax Administration office to do so can go to their municipal office to get an application form and submit their completed application. Tax Administration staff will pick up completed VAT Registration applications and will deliver the Registration Certificates twice a week where applicable.
- 7.4 With respect of intra FRY inflows, the requirement to apply to be registered may, in very exceptional circumstances, and at the discretion of the Director General UNMIK Customs Service, be deemed to be met by payment of the VAT due on each occasion unless the taxable person is liable to register by virtue of having a yearly turnover greater than 200,000 DM. This is a transitional provision and will apply for a period no longer than four weeks following the VAT implementation date.
- 7.5 Taxable persons who are involved in export activities or intra FRY outflows and are required to register under section 3.5 of the Regulation shall be deemed to make taxable supplies taxed at 0% on their exports or intra FRY outflows. Such persons are entitled to an input tax credit and they are required to file a monthly tax return.

## Section 8 Procedure to be registered

- 8.1 In respect of section 4 of the Regulation "Procedure for Registration", a person required to be registered must make an application for registration in the required format.
- 8.2 Taxable persons who meet the registration criteria when the VAT regulation enters into force are required to register within 30 days after that date. The VAT Regulation entered into force on May 31, 2001.

- 8.3 Taxable persons who meet the criteria for registration when the VAT regulation enters into force and are not registered on July 1<sup>st</sup>, 2001 shall be registered. Failure to voluntarily register on or after the required date will result in penalty.
- 8.4 Taxable persons who do not meet the registration criteria when the VAT Regulation enters into force shall be required to register within 15 days after the day they meet the criteria. Failure to register on or after the required date will result in penalty.
- 8.5 The application for registration shall be made in the form provided by Tax Administration and filed at the applicant's Regional or Local Tax Office. The VAT Application form is as follows:

1. Insert your Business Registration Number
2. Indicate your short business name
3. Indicate your full business name
4. Give the address of your business
5. Indicate the proprietor/director name
6. Indicate the purpose of VAT registration. Select the appropriate status.
7. At Item 7 you must indicate the Total Turnover of your business for the Last Year and for the Current Year
8. Indicate if you would like a Tax Administration official to visit your place of business to explain your obligations for VAT
9. Indicate if you conduct your business on a *Regular* basis in more than one location. You must then provide the address details for each additional place of business in the space provided above these instructions.
10. The application must be signed and dated at item 10 by the applicant. The signatory declares that the information provided is true and correct.

A VAT Registration Certificate will be issued showing the business name, the Business registration Number (BRN) and the principal address of the business. The VAT Registration Certificate must be publicly displayed at this location. Additional VAT Registration Certificates will be issued for each additional business address. If any of these details subsequently changes, or

business activity ceases at the location shown, the VAT Registration Certificate must be returned to the Tax administration. All VAT Certificates remain the property of Tax Administration.

The BRN must be indicated on all invoices and in the correspondence with the Tax Administration and the Customs Department.

8.6 Once the application and registration process is completed, Tax Administration shall issue a VAT Registration Certificate on which a unique VAT identification number appears. The applicant shall have as many certificates as the number of declared places of business and each certificate shall have the same identification number. The VAT Registration Certificate is as follows.

8.7 Per section 25 of the Regulation "Duty to Inform of Changes", where changes occur with regard to the data provided on the registration application form, a taxable person has the obligation to notify Tax Administration of CFA within 15 days of the changes by filling out the Amendment to the Registration form which must be filed at the registered person's Regional or Local Tax Office. The format of the Amendment to the Registration form is as follows:

#### Section 9 Taxable Value

9.1 In respect of section 8.4 of the Regulation, the main method for establishing the Open Market Value shall be the value of similar goods or services of like quality and quantity that are sold to a buyer who is fully independent of the seller in an open market transaction. Where there are no similar goods or services available in the open market, the open market value shall be the Cost Plus Method which is the cost of producing the goods or rendering the services plus the profit margin applicable to that type of business.

9.2 In respect of section 8.6 of the Regulation, where the amount of VAT is not listed separately on the tax invoice, the VAT for that supply shall be calculated by dividing the total value by 7.666. The difference between the price inclusive of value added tax and the VAT shall be the taxable value. For example, if the price of a good displayed in a shop window is 115 DM VAT included, we can find the amount of VAT for that supply by dividing 115 by 7.666 which gives 15 DM. The taxable value is 100DM, i.e.  $115 - 15 = 100$ .

#### Section 10 Proof for Export and intra FRY outflows

10.1 In respect of section 10.2 of the Regulation, the proof required to establish that an export has occurred shall be the Single Administrative Document and the copy of the import declaration of the recipient country.

10.2 In respect of intra FRY outflow, the proof required to establish that an intra-FRY outflow has occurred shall be the Single Administrative Document.

12.2 An invoice is issued every time a registered person makes a taxable supply to another business or to the final consumer. The invoice must be issued in at least two authentic copies, one for the vendor and one for the buyer. If the registered person uses a cash register, the electronic coupon must contain at least the following data:

- VAT ID Number and Name of the Vendor
- Date and Serial Number
- price without VAT
- VAT
- Total Price

At the end of the day a tax invoice must be prepared listing all electronic coupons issued during the day and stating total amounts. Supporting documentation shall be kept for examination by Tax Administration of CFA. The data on the tax invoice shall be registered in the sales book in the same manner as for all other tax invoices. A coupon shall not be recognized as an official document for input tax credit.

Section 13  
Adjustments

In respect of section 15 of the Regulation, a Credit Note or a Debit Note is issued by a taxable person at anytime after a tax invoice has been issued and the VAT charged exceeds or is less than the actual VAT for that supply. The Credit or Debit Note is prepared in the same format as the original Tax Invoice and must include the serial number of the related invoice, the revised amount of the supply, the revised amount of tax, the reason for the adjustment and the words 'Credit Note' or 'Debit Note', in hand writing, at the upper right hand side corner of the invoice.

Section 14  
Declaration and Remittance

In respect of Section 17 of the Regulation the form for the VAT Declaration is as follows:

14.1 The tax return must be submitted to BPK or MEB or any other authorized bank in Kosovo, together with the remittance, on or before the last day of the month following the tax period. The tax return shall be prepared in three authentic copies: the first one for the Tax Administration, the second one for the bank and the third one for the taxpayer.

14.2 Where the filing deadline for the VAT declaration is a Sunday or National Holiday, the declaration shall be submitted at the latest on the first working day following the Sunday or National Holiday.

Section 15  
Capital Goods

15.1 In respect of section 18.2 of the Regulation, a deferment of VAT on Capital Goods shall be allowed only to newly established businesses, on import or intra-FRY inflow of machinery and equipment falling under Chapters 84 and 87 of the Harmonized System Goods Nomenclature . Machinery and equipment may be new or used and shall be used for the production of other goods or services.

15.2 In order to benefit from this deferment, the new business shall apply to Tax Administration by filling out an application form. The applicant must attach to the application a copy of the business plan, a copy of the contract with the vendor of the machinery or equipment, a bank guarantee to cover the VAT portion, a plan of the plant or factory, the construction permit given by the authorized agencies.

15.3 Tax Administration shall review the requests and shall grant the deferment to applicants who meet the conditions of reliability. A written approval or refusal shall be issued by Tax Administration to the applicant and a copy shall be forwarded to Customs Service before the importation or intra FRY inflow occurs. The new business will give prior notice to the Customs Service of the anticipated date and location of entry of the goods into Kosovo. At time of importation/inflow, the Customs Service shall request from the owner of the goods the letter of approval issued by Tax Administration and verify that it corresponds to the letter of approval forwarded to Customs by Tax Administration. Customs Service shall calculate the deferred amount of VAT for the capital good and write “Deferred” beside the amount of VAT on the Customs Declaration. Customs Service shall notify Tax Administration of the deferment at time of arrival.

15.4 The taxable person has 6 months to set off the VAT against the output tax. If during the six month period the taxable person starts supplying taxable goods and services, the taxable person shall prepare a tax invoice with the value of the capital good and the respective value added tax. The data on the tax invoice shall correspond to the data on the customs declaration. The data of the tax invoice shall be registered in both, the sales and the purchase book, zeroing the VAT for the capital good and the output VAT charged and collected from the buyers shall be remitted to Kosovo Consolidated Budget (of course after deducting any potential input VAT on other purchases).

15.5 If at the end of the 6 month period the value added tax is not set off, Tax Administration shall request the bank to cover the difference from the guarantee. No credit of input tax shall be allowable until the beneficiary of the deferment starts supplying taxable goods and services.

Section 16  
Non deductible VAT

In respect of section 21.2 of the Regulation, a VAT credit shall not be allowed in the following cases:

- a) Fuel purchases, except when:
  - i) The scope of the activity is to trade fuels,
  - ii) The fuel is indispensable for the technological needs of the activity such as in the case of the fuel for a transport company, fuel for the central heating, fuel for delivery truck;
- b) Travel, representation, lodging, meals and entertainment expenses,
- c) Expenses related to cars, except when,
  - i) The scope of the activity is to trade cars,
  - ii) The use of cars is the sole activity of the taxable person, as in the case of Rent A Car services, Taxis Services, Ambulance Services and Funeral Services.
- d) All related services with expenses listed from 'a' to 'c'.

Section 17  
Bad Debt

17.1 In respect of section 22, a debt is considered a "Bad Debt" when the three following conditions are met:

- The whole or part of the payment for a taxable supply has not been received by the supplier,
- At least six months have passed after the tax period for which VAT was charged with respect of that supply,
- The taxable person has evidence that all legal steps were taken to collect the debt before an invoice for bad debt is issued. Such evidence shall include a decision given by a court in Kosovo with regard to the debt to be recovered or a statement from the Prosecutor Office or CIVPOL or Municipal Authorities with regard to the debtor or other strong evidence acceptable to Tax Administration.

17.2 If the three conditions are met, the vendor must issue an invoice for bad debt which is prepared in the same format as a normal invoice. Such an invoice must contain the words "Bad Debt Invoice" and must refer to the serial number of the original invoice for which the payment or part of the payment is not received. This invoice is then used by the registered vendor to reduce the VAT liability and by the registered buyer to reduce the credit of input tax. The Sales book of the registered vendor and the Purchase book of the registered buyer must be adjusted accordingly.

Section 18  
Refunds

18.1 In respect of section 23 of the Regulation, "Excess Tax and Refund", if the balance of the excess tax credit in box [18] of the tax declarations is carried forward for at least 6 months and the amount carried forward exceeds 10,000DM, the taxable person is entitled to a refund.

18.2 For Exporters and those who make intra FRY outflows, a refund may be claimed every quarter or every month if the amount of excess tax is higher than 10,000 DM.

18.3 Applications for refund shall be accepted by the Tax Administration of CFA starting January 2002. The form of the Application for Refund is as follows:

18.4 Tax Administration shall audit all the refund claims before they are processed and shall give the results of the audit in writing and within a reasonable period of time. The procedure for crediting the bank account of a refund claimant shall be specified in a subsequent Administrative Instruction issued by the Co-Heads of CFA.

Section 19  
Books and Records

19.1 All sales shall be recorded in the Sales Book. The format of the Sales Book is as follows:

1	2	3	4=2x3	5	6=4+5

### Section 20 Retention Period

The retention period for books and records and other related original documents shall be of five years.

### Section 21 Construction

In respect of section 12 of the Regulation, "Exempt Supply", the transfer of title and lease of residential property and land is an exempt supply. However 'Construction' is considered a normal supply of services and is a taxable supply. Because of the specific characteristics of construction the "Situation of Progress of Works" shall be recognized as a normal VAT Tax Invoice.

Section 22  
Supplies for own use

Where goods or services are used for the own economic activity needs of the taxable person, the transaction shall be recorded as follows:

- a tax invoice shall be issued charging VAT at the required tax rate for that supply and the tax invoice shall be registered in the Sales Book; and
- the same invoice shall be registered in the Purchase Book. The VAT effect of such a self-supply is zero.

Section 23  
Advance Payments

Where a taxable person receives a payment before the goods or services are supplied a tax invoice shall be immediately prepared by the taxable person and shall be registered in the Sales book at that time.

Section 24  
Coefficient of Input Tax Credit

Where a taxable person makes taxable supplies and exempt supplies of goods and services, a Coefficient of Input Tax Credit shall be calculated based on the following formula:

$$\text{Credit of Input Tax Coefficient} = \frac{\text{Taxable Supplies}}{\text{Taxable Supplies} + \text{Exempt Supplies}}$$

The coefficient shall be calculated at the end of the tax period and shall apply to the VAT paid on imports, intra FRY inflows and domestic purchases for that tax period. The product shall be the Allowable Credit of Input Tax for the tax period which is deductible from the output Tax of the same period.

Section 25  
Sales Tax Credit

No tax credit shall be allowed against VAT for the Sales Tax paid on importation of goods prior to the entry into force of the VAT Regulation even if the whole or part of such goods are in inventory on July 1<sup>st</sup>, 2001.

Section 26  
Presumptive Tax Implications

The total value of the taxable person's exempt supplies and taxable supplies which include 0-rated supplies shall be the taxable base for the Presumptive Tax of that taxable person. The VAT charged shall be excluded from the total value. The Presumptive tax taxable base, or turnover, shall be the sum of the amount recorded in the Total Supplies column of the Sales Book for each of the three months covered by the Presumptive Tax period. VAT taxable persons who are required to file a VAT declaration will not be required to keep Presumptive Tax Sales and Purchase Books, starting July 1<sup>st</sup> 2001. VAT books shall be used for Presumptive Tax purposes.

Section 27  
Violations and Penalties

In addition to the penalties imposed in section 5 of Regulation No 2000/20 on Tax Administration and Procedures and article 9 of the Tax Administration Instruction No. 2000/1, the following penalties will apply for the violations listed below:

-failure to apply to be registered and de registered- 250DM

-failure to notify changes-250DM penalty.

-failure to issue a tax invoice when required – VAT assessment plus penalty of 250 DM.

Section 28  
Entry into force

This Administrative Instruction enters into force on the same day as the Regulation No2001/11 on Value Added Tax in Kosovo.
